Robins AF Base, Georgia			
<p>8. No unusual activity or conditions which might account for sighting.</p> <p>9. Report not received until 061600Z therefore no interception or identification action possible.</p> <p>10. Air Traffic in the area was one C-46 departing Robins AF Base at 061122Z and one DC-4 landing at 061148Z.</p> <p>11. Report prepared by Major John W. Porter, Chief Flight Operations Division, Robins Air Force Base. The <u>location</u> and <u>time</u> of <u>sighting</u> of reported flying object would have placed it <u>directly</u> over the <u>landing area</u> during the landing of DC-4 aircraft. The object was <u>not</u> observed by the Control Tower operator or reported by the pilot of landing aircraft, therefore, <u>reliability</u> of report is doubtful.</p> <p>12. None</p>
